

# FALL RIVER JOINT UNIFIED SCHOOL DISTRICT

February 24, 2016

Parent/Guardians,

This is to inform you that there has been an outbreak of chickenpox in the Burney end of the District. So far there have been three identified cases. For those families who have state exempt unvaccinated children, they may have been exposed. Information about the disease is enclosed. For those families with vaccinated children, there is still a risk of contracting the disease, but it usually is a mild case.

If you have any questions or concerns, feel free to contact me at the information below.

Karen VanCleave RN

District Nurse
